RE: Our insured: Ogden City Corporation  
Date of Acc: 10-23-85  
Type of Acc: Irrigation water backup  
Location: 173 East 12th Street  
Ogden, UT

Dear Mr. Heslop:

We appreciate the information we received from you on 11-14-85. We continue to be somewhat confused as to the relationship between Ogden City Corporation and the ownership or use of the Various ditches or canals in the area affected in this claim. Mount Fort ditches numbers one and two interweave from east to west with the Mill creek.

1. Who owns the irrigation ditch which runs into the grate at 12th Street and about 150 East?
2. Is there a written or oral agreement between Ogden City and owners/users of the ditches/creek which requires Ogden City to check and/or clean the grate?
3. When did the normal irrigation season end for the canal companies in Ogden this year?

Your comments will be greatly appreciated. Please address them to the undersigned.

Respectfully yours,

  
John Halvorsen  
Adjuster
